Enhancing The Skills To Meet Industry Needs

[ABOUT US](#) [EMPLOYER PORTAL](#) [TRAINEE PORTAL](#) [NEWS & MEDIA](#)

The official OGM website has been re-launched presenting a fresh look and feel with enhanced content and detailed up to date information. The new website provides distinct areas for both Employer and Trainee requirements.

The site can be viewed at <http://ogmti.com.au>

Leighton OGM Training Institute launches first Trade Skill Course

The inaugural OGM Mechanical Electrical Plumbing (MEP) course, benchmarked to both Australian and Indian industry standards, was launched at the Leighton OGM Training Institute in January. The 24 trainees underwent a rigorous screening process of selection. This trade skill course has been specially designed to ensure that the trainee skills are developed in line with the specific requirements of Leighton and the program has been developed to ensure maximum hands-on practical exposure (30% theoretical and 70% practical), with the practical component simulating on-site real work environment with a high

Last leg for IL&FS Ropar trainees

Trainees undergoing the IL&FS welding course in Ropar entered the last leg of their on-site training with Leighton India in Gurgaon on the DLF Camellias project. The 3 month internship organized by OGM through Leighton India exposes the trainees to real work environment to build on their welding skills while being constantly monitored and assessed for safety and quality. By the end of the internship the trainees will be work ready with hands on experience on TIG, MIG and ARC welding. After the completion of their internship, the trainees will be

emphasis on Work, Health & Safety. The trainees will be required to complete a series of assessments in order to be deemed competent. The Leighton workers have welcomed this opportunity to learn and grow which in turn provides them with exciting career pathways. The OGM Training Institute programs will continually roll out additional courses over the coming months.

Momentum building for Skill Development in India

With Indian Industry voicing the increasing challenges faced due to lack of skilled manpower, the Indian government and industry push for 'real' vocational training to be delivered at the Industrial Training Institutes (ITIs) across India. This aligns with OGM programs and philosophy of building skills for India domestically and internationally.
