**OGM/VETASSESS Partnership Agreement signed with Global Work Force**

[OGM/VETASSESS](#) is pleased to announce the formal partnership with Global Work Force (GWF). This brings our network of partners to 5 spanning 3 countries.

GWF is an organisation based in the British Virgin Islands, specializing in providing training and placement service to human resources. GWF proposes to deliver OGM courses to Australian accredited levels in Pakistan.

### **CTTI Campus**

GWF will be delivering the OGM courses in Islamabad, Pakistan, using the facilities of [Construction Technology Training Institute](#) (CTTI).

Global Work Force CEO Naveed Gilani says ' *The partnership between OGM & GWF seeks to equip the disadvantaged youth of Pakistan with technical skills that will go a long way in improving their own and their family's quality of life. Personally, I am proud to be associated with an initiative that will have such a profound impact on the standard of living of young underprivileged Pakistanis.*'

### **OGM/VETASSESS Master Training Program begins in Manila - November 2013**

The Master Training Program for the course trainers of our partner institutions will start on 14 November, 2013 in Manila.

The program will be delivered by [VETASSESS](#) trainers who have developed the Master Training Program to ensure that not only do the participants get the maximum value from the program but also add to the program, a follow-up mentoring element, which will ensure what they have been taught has been understood well and is being applied. Additionally, this also provides an opportunity for the Master Trainers to get quality feedback on their teaching, which is part of the continuous and rigorous

development plan for the Master Trainers.

The program will be attended by over 20 Master Trainers from our 4 partner institutes in India and the Philippines. Following the Master Training Program, the trainers will prepare the course lesson plans, assessment materials, etc. and then be ready to start delivery the courses from January, 2014.

If you would like to find out more on how such a program could be of benefit to your organisation, please contact Mr Aminur Rahman on email: [ar@ogmti.com.au](mailto:ar@ogmti.com.au)

### **Naser S Al Hajri Corporation (NSH) starts recruitment drive in the Philippines**

[Naser S Al Hajri Corporation](#) (NSH) recently visited the Philippines on a skilled worker recruitment drive for projects in Saudi Arabia.

With [OGM](#) partner involvement by [El Jars](#) and OFW interview sessions were arranged in both Manila and Camsur from which 50 applicants will be offered positions. By linking company recruitment and industry needs to skills development and training, OGM with El Jars are delivering courses in the Philippines that are certified to both [Australian AQF standards](#) with [Vetassesss](#), and Philippines with [TESDA](#) standards which provides companies with significantly enhanced confidence in recruitment of “work ready” skilled workers.

***NSH recruitment of Philippine workers for KSA in Naga (Camsur) - NSH / OGM team together with El Jars and Camsur local Government representatives***

OGM with El Jars have plans to undertake regular recruitment programs for companies linked to experienced workers who have advanced and certified formal qualifications. The success of this program is underpinned with quality training that is certified independently to globally recognised Australian and Philippine Government levels.
