Leighton India Contractors Pvt. Ltd. Partners with OGM

[OGM Technical Institute Pty Ltd](#) have entered into an exclusive agreement with [Leighton India Contractors Pvt. Ltd.](#) (LI) to deliver and quality manage trade skill training courses for their workforce in India. OGM will exclusively manage LI's Skills Training, delivering three levels of training including specific courses and trade craft skills. OGM will manage audit of training facilities and training systems through to assessment and awarding of qualifications. OGM will be delivering the courses, initially covering comprehensive OH&ES induction, as well as training to specific project requirements in India, and with advanced training certifying workers for future international placements.

This partnership will provide LI, with a continuous flow of "work ready" skilled workers increasing safety standards with productivity. OGM courses provide LI workers with Skills benchmarked to the Australian and Indian standards meeting the Indian Construction Skill Development Council of India requirements.

"We are genuinely excited with the possibilities of the training center for our direct labour and our partnership with OGM to deliver our training needs. With the completion of the Master Training Certificate IV TAE40110 course and after only six weeks in to our partnership, we are already seeing a positive change in our workers with the transparency of a career path via skills based assessments.

We are confident that the overall training model partnered with OGM will create an environment whereby we don't have to "Sausage Factory" our training driven by cost per student but rather the overall quality of the training and independent skills assessment"

Mark Griffiths, Chief Operating Officer - Buildings, Leighton India Contractors Private Limited

OGM & Leighton India - Master Training Program

In August OGM delivered a comprehensive Certificate IV TAE program over a period of 5 weeks for Leighton in India, with [Kangan Institute](#). This has certified 40 trainers to design, develop, deliver and assess OGM courses to LI requirements and matched to Indian – Australian – NSDC's Skill Council's framework and quality standards.

OGM Team visit to IL&FS Ropar

Following the launch of the first IL&FS Welding course, the OGM team visited the IL&FS Ropar Centre interacting with trainees and counselling them on career pathways in international markets. Aminur Rahman, GM OGM outlined the philosophy and strategy of OGM

OGM Team Expands

OGM Technical Institute is pleased to introduce our new team members for India operations. Ms Supreet Khosla joined as the Country Manager for India and Mr Amandeep Singh Bhandari as the Technical Quality Manager.

Supreet is a Certificate IV TAFE qualified trainer and has over 9 years work experience with the MNCs in India. Her last assignment was with the Australian Trade Commission in New Delhi. Supreet brings strong database management and business development skills to the team.

Amandeep is a Certificate IV TAFE qualified trainer and is pursuing a PhD in Electronics in India with a total of 8 years work experience. He is a quality expert with a strong technical and teaching background. Amandeep's last assignment was with the Chandigarh University as Head of Department (Electronics).

Technical Institute which is first and foremost to produce high quality skilled workers, who are work ready, and to then support their placement offering best career opportunities. The OGM team also visited the IL&FS industry partner, Cheema Boilers. The day long session was well received by all.

As a young and dynamic team they are both ready to provide support and assistance to our partners and to make a difference.
