Leighton OGM Induction Course Soft Launch

The Leighton OGM India first group of trainees completed a comprehensive Health, Safety, Security & Environment (HSSE) induction training program during October. The group comprised of various trade skills working on Leighton's DLF Camellias project. The course designed and contextualised specifically for workers is matched to Australian and Indian health and safety standards.

The training covers class 1 risk activities, identification of construction site hazards, control measures, emergency management systems, as well as HSSE communication systems. The sessions are interactive ensuring student participation in live demonstrations, group activity scenarios and written assessments.

Leighton Training Institute Construction in Full Swing

The Leighton OGM Training Institute is now close to completion with inauguration scheduled for early December. The state of the art institute is being equipped to deliver

Kangan Institute - OGM's Australian Academic Partner

Kangan Institute is an Australian (Victorian) Government accredited TAFE delivering more than 300 nationally accredited courses to both

trade skill courses including scaffolding, welding, plumbing, electrical, steel fixing, masonry, rigging and a range of additional courses matched to Leighton skilled workforce requirements.

OGM provide management, delivery of courses, audits of the training facility, training systems and student record management systems in partnership with Leighton India.

local and international students across six campuses in central and northern Melbourne. The courses reflect current industry requirements ensuring trainees gain skills relevant and in demand against employer needs.

The courses range from basic certificate to diploma and advanced diploma levels, with pathways to over 25 universities in Australia and internationally.

OGM have partnered with Kangan to provide trade skill courses delivered in a high quality training facility. The curriculum has been contextualised to Indian and international industry needs. The OGM - Kangan 'Train the Trainer' programs are delivered by Kangan staff, certifying our trainers to AQF TAE Certificate IV level. Kangan then further conduct bi-annual audits of OGM course content, facilities and course delivery to ensure independent quality certification for successful trainees.
